

## Lawyer with Focus EAM & OTC Derivatives

For a very renowned Swiss Bank based in Zurich we are looking for a dynamic, independent and versatile lawyer with a convincing appearance and interest in technological developments as well as willingness to take on responsible and challenging tasks in a broad international legal environment.

An in-depth knowledge of external asset managers and OTC derivatives trading (ISDA/SMA) is important for this position.

### External Asset Managers / EAM

- Central point of contact for the bank's internal business partners for legal issues related to the servicing of, and services to, independent asset managers
- Negotiation of collaboration and other agreements
- Legal support of various projects of the relevant client unit in the area of regulation, simplification as well as monitoring and improving the quality of documentation, digitalization, etc.
- Regular review and improvement of internal processes
- Provide ad hoc legal assessment and advice on special constellations, set ups and issues
- Recording and assessing legal and regulatory innovations in the relevant legal areas
- Close cooperation with other legal departments, exchange of know-how

### OTC Derivatives:

- Central contact person for the bank's internal business partners for legal issues related to OTC derivatives trading (ISDA, SMA, Tailor-Made)
- Independent negotiation of OTC derivative contracts with counterparties and internal coordination with business partners and Collateral Management
- Independent legal support and assistance with projects in the area of OTC derivatives trading (e.g. IBOR replacement, initial margin)
- Simplification as well as monitoring and improvement of documentation quality
- Regular review and improvement of internal processes
- Recording and assessing legal and regulatory innovations in the area of OTC derivatives trading

You bring:

- Degree from a Swiss university (licentiate or master in law)
- Swiss bar exam is an advantage
- At least 3- 5 years of relevant work experience as a lawyer in a financial services company or in a commercial law firm with a focus on the EAM area or the OTC area
- Technical flair and interest in new technologies and digitalization in finance
- Very good oral and written communication skills in German and English, French or another national language would be an advantage

Your are:

- Independent, conscientious and structured way of working with good communication skills
- Team player
- Flexible and creative thinking person with hands-on mentality
- Due to the direct contact with the front line, assertiveness, resilience and professionalism as well as a convincing appearance are required
